The abundance program was really good. Gives a lot of positivity and confidence. I am **able to relate** as to where from my drawbacks were originating from and how to overcome them.

**I am totally in control of my beliefs and ways of working along with the outcomes.** I am here to get the best in this universe.

Amazing workshop. Runu is a super powerful healer and reaches to the core of your problem directly with our any wait or roundabout techniques.

The techniques that Vandana explained for money management were eye opening. Infact I would like those to be shared with everyone.

So much clearing, changing and shifts were experienced by everyone in the workshop which was very eye opening and the way they raised they raised the energy of the group was totally amazing.

I truly **feel like a new** person, It feels like I finally found myself as I always used to feel like a misfit and not like the rest of the people around me. Even if I am in group, I felt lonely.

The beautiful point is I felt connected to each individual in this core group. I **will forever be grateful to Runu.**

Through these healings and this opening, I will help others too to join and break their karmic cycles.

**Truely liberating**

Its like I can't wait to start.

Completely overwhelmed.
